Focus On The Basics

GPAR and SHB offer thick, easy fleshing bulls, the type and kind we all like yet with the performance and EPDs to keep your herd moving forward. We feel that it is possible to keep those dynamics in balance. We are two Black Angus programs with common goals and philosophies guiding and shaping our genetic decisions. Our emphasis in this ever-developing world of advanced genetics is not to forget the basics!

Come take your pick from a strong set of bulls, knowing that the cowherds behind them have the strong maternal traits that add strength and value to any working bull. These bulls will sire the heavy weaning, good gaining calves that pay the bills, and they'll also sire the hard-working, fertile females back into your herd that keep you in business!
